

“Attention All Dancers” Something Especially For You

The following program has been designed in hopes that it will enhance the dancing abilities of our overall membership. It is a ten week **non-progressive** workshop program to be held on Thursday evenings. The term non-progressive means that each of the movements listed below will be taught on that evening only.

There will not be a review following the initial teach and the movements will not be called on any Thursday after they are taught. This program has been used in other areas and it has proved to be very beneficial in maintaining a fun dancing level at the club. It is very beneficial for the newer and less experienced dancers. Also, it will provide a great opportunity for more experienced dancers to get a good review on movements which have a lesser frequency of use.
